Re: Application Status: Approved

Greenbrier Smokeless Coal Mining, LLC Kuhn Ridge Surface Mine - Coal Screen Registration Application G10-D167

Plant ID No. 025-00116

Dear Mr. Necessary:

Your application for a General Permit G10-D registration to construct a coal screening plant as required by Section 5 of 45CSR13 - "Permits for Construction, Modification, Relocation and Operation of Stationary Sources of Air Pollutants, Notification Requirements, Temporary Permit, General Permit, and Procedures for Evaluation" has been approved. The enclosed registration G10-D167 is hereby issued pursuant to Subsection 5.7 of 45CSR13. Please be aware of the notification requirements in the permit which pertain to commencement of construction, modification, or relocation activities; startup of operations; and suspension of operations.

A copy of the complete General Permit G40-C may be obtained from the DAQ's website at the following address: http://www.dep.wv.gov/daq/permitting/Pages/airgeneralpermit.aspx.

As a result of this permit, the source is a nonmajor or area source subject to 45CSR30. Therefore, the facility is not subject to the permitting requirements of 45CSR30 and is classified as a deferred source.

In accordance with 45CSR30 - Operating Permit Program, the permittee shall submit a certified emissions statement and pay fees on an annual basis in accordance with the submittal requirements of the Division of Air Quality. A receipt for the appropriate fee shall be maintained on the premises for which the receipt has been issued, and shall be made immediately available for inspection by the Secretary or his/her duly authorized representative.

Any person whose interest may be affected, including, but not necessarily limited to, the applicant and any person who participated in the public comment process, by a permit issued,

modified or denied by the Secretary may appeal such action of the Secretary to the Air Quality Board pursuant to article one [§§22B-1-1 et seq.], Chapter 22B of the Code of West Virginia. West Virginia Code §§22-5-14.

Should you have any questions, please contact me at (304) 926-0499, ext. 1210.

Sincerely,

Daniel P. Roberts, Engineer Trainee

# West Virginia Department of Environmental Protection Division of Air Quality Austin Caperton Cabinet Secretary

Jim Justice Governor

# Class II General Permit G10-D Registration to Construct

for the

Prevention and Control of Air Pollution in regard to the
Construction, Modification, Relocation,
Administrative Update and Operation of
Coal Preparation Plants and Coal Handling Operations

The permittee identified at the facility listed below is authorized to construct the stationary sources of air pollutants identified herein in accordance with all terms and conditions of General Permit G10-D.

G10-D167

Issued to:

Greenbrier Smokeless Coal Mining, LLC Kuhn Ridge Surface Mine - Coal Screening Plant 025-00116

> William F. Durham Director

Effective: April 28, 2017

This Class II General Permit Registration will not supersede any existing general permit registrations or Rule 13 individual permits.

Greenbrier Smokeless Coal Mining, LLC has also submitted application G40-C083 for a rock crushing and screening plant. The proposed raw coal screening plant (G10-D167) and proposed rock crushing and screening plant (G40-C083) will be located on the contiguous or adjacent property and will share a common facility ID number of 025-00116. The proposed rock crushing and screening plant is considered a support facility for the proposed raw coal screening plant since the rock that is being crushed will be used in maintaining the haulroads used to transport the raw coal.

Facility Location:

Rupert, Greenbrier County, West Virginia

Mailing Address:

PO Box Q, 4425 Anjean Road, Rupert, WV 25984

Facility Description:

Coal Preparation Plant

SIC Codes:

1221 (Bituminous Coal & Lignite - Surface)

NAICS Codes:

212111 (Bituminous Coal and Lignite Surface Mining)

UTM Coordinates:

Easting: 538.59128 km • Northing: 4208.19330 km • NAD83 Zone 17N

Lat/Lon Coordinates:

Latitude: 38.020613 • Longitude: -80.560328 • NAD83

Registration Type:

Construction

Description of Change: Construction of a Powerscreen Warrior 1800 2 Deck Heavy Duty Incline Screen powered by a Caterpillar C4.4 4 cylinder 82 kW (110 hp) engine E1 manufactured in 2014. Engine E1 is Tier 4i / Stage 3B certified. This 600 TPH and 5,625,000 TPY raw coal screening plant will consist of one dump bin, one screen, five belt conveyors and three open storage piles and be used to size

direct-ship pit cleaned coal from a surface mine.

Subject to 40CFR60 Subpart Y? Yes Subject to 40CFR60 Subpart IIII? Yes Subject to 40CFR60 Subpart JJJJ? No

> Any person whose interest may be affected, including, but not necessarily limited to, the applicant and any person who participated in the public comment process, by a permit or registration issued, modified or denied by the Secretary may appeal such action of the Secretary to the Air Quality Board pursuant to article one [§§ 22B-1-1 et seq.], Chapter 22B of the Code of West Virginia. West Virginia Code §22-5-14.

As a result of this permit, the source is a nonmajor or area source subject to 45CSR30. Therefore, the facility is not subject to the permitting requirements of 45CSR30 and is classified as a deferred source.

# All registered facilities under Class II General Permit G10-D are subject to Sections 1.0, 1.1, 2.0, 3.0 and 4.0.

The following sections of Class II General Permit G10-D apply to the registrant:

| Section 5  | Coal Preparation and Processing Plants and Coal Handling Operations   |  |
|------------|---|--|
| Section 6  | Standards of Performance for Coal Preparation and Processing Plants   |  |
|            | that Commenced Construction, Reconstruction or Modification after     |  |
|            | October 27, 1974, and on or before April 27, 2008 (40CFR60 Subpart Y) |  |
| Section 7  | Standards of Performance for Coal Preparation and Processing Plants   |  |
|            | that Commenced Construction, Reconstruction or Modification after     |  |
|            | April 28, 2008, and on or before May 27, 2009 (40CFR60 Subpart Y)     |  |
| Section 8  | Standards of Performance for Coal Preparation and Processing Plants   |  |
|            | that Commenced Construction, Reconstruction or Modification after     |  |
|            | May 27, 2009 (40CFR60 Subpart Y)                                      |  |
| Section 9  | Reciprocating Internal Combustion Engines (R.I.C.E.)                  |  |
| Section 10 | Tanks   |  |
| Section 11 | Standards of Performance for Stationary Compression Ignition Internal |  |
|            | Combustion Engines (40CFR60 Subpart IIII)                             |  |
| Section 12 | Standards of Performance for Stationary Spark Ignition Internal       |  |
|            | Combustion Engines (40CFR60 Subpart JJJJ)                             |  |
|            |   |  |

In accordance with 40 CFR 60 Subpart Y, coal processing and conveying equipment, coal storage systems, and coal transfer and loading systems constructed, reconstructed, or modified after April 28, 2008 shall not discharge gases which exhibit 10 percent opacity or greater. For open storage piles constructed, reconstructed, or modified after May 27, 2009, the permittee shall prepare and operate in accordance with a fugitive coal dust emissions control plan that is appropriate for site conditions.

All registered affected facilities under Class II General Permit G10-D are subject to Sections 1.0, 1.1, 2.0, 3.0 and 4.0.
